EDUCATION

Aditya College of Engineering and Technology <i>Bachelor of Technology in Electronics and Communication Engineering</i>	2023 - 2026
Aditya Engineering College <i>Diploma in Electronics and Communication Engineering</i>	2020 - 2023
Sri Adarsha High School <i>High School</i>	2010 - 2020

TECHNICAL SKILLS

Programming Languages :	C , Python , Java
Web Technologies :	HTML , CSS , JavaScript
Frontend Technologies:	Bootstrap , React.js
Backend Technologies :	MongoDB
Developer Tools :	Sublime , VS Code , GitHub , MongoDB Compass
Technologies :	Full Stack Development, React Native
Areas of Interest :	Web Design and Development, Mobile App Development

PROJECTS

Blood Care October 2024

- Created a "Blood Care" platform focused on "Blood Donation" management using React for the front-end and MongoDB for the database.
 - **Admin Page:** Manages over **100+ user and donation records**, streamlining data management.
 - **Registration Page:** Streamlined user sign-up process, reducing manual data entry by **80%**.
 - **Student Home Page:** Displays user-specific details such as name, roll number, blood group, and contribution history, improving user access and experience across **100+ active users**.
 - **Procedure Page:** Guides users through the donation process, increasing donor sign-ups by **30%**.
- Ensured full responsiveness across all devices, providing an optimal user experience for **100+ users**.

Safeguard India — Smart India Hackathon September 2024

- Contributed the idea for the Safeguard India project focused on disaster management, which was selected up to the college level.

Finance Tracker July 2024

- Developed a responsive front-end for the Finance Tracker application using HTML, CSS, and JavaScript, improving user interactions and engagement metrics.
- Designed **5+** interactive charts to visualize financial data, resulting in a **20**

Web and cloud Bootcamp December 2022

- Participated in a hands-on **BOOTCAMP** during my diploma focused on web development and cloud technologies.
- Built a fully responsive Gym website as part of a bootcamp project using HTML, CSS, and Bootstrap. Structured the layout to effectively present services, testimonials, and contact information.

INTERNSHIPS

- **Web Development Intern** [*CodSoft – Virtual*] August 2024 – September 2024
 - Completed a 4-week internship focused on front-end web development, contributing to the design and implementation of responsive websites using HTML, CSS, and JavaScript.
 - Certified for successfully completing the internship and acquiring hands-on experience in modern web development practices.

ACHIEVEMENTS

- Advanced to the **college level** in the **Smart India Hackathon** (2024) with a project titled **”Safeguard India”** aimed at protecting human safety and disaster management.

CERTIFICATIONS

- Certified in **HTML , CSS** from IT Specialist Certiport
- Certified in **Introduction to Networks** from CISCO
- Certified in **JavaScript Essentials 1** from CISCO
- Certified in **Basics of JavaScript** from HackerRank
- Certified in **Tata Crucible Campus Quiz 2024** and **Flipkart GRiD 6.0 - Software Development Track** from Unstop
